PROFESSIONAL SUMMARY

Detail-oriented Equity Research Analyst with 3+ years of experience in fundamental analysis, investment writing, and financial modeling across US and Indian equities. Track record of publishing research across Barchart, and NASDAQ, translating complex macroeconomic and corporate data into actionable investment insights. Currently conducting Indian market equity research through PredictRAM's R.A.M.P. program. Skilled in DCF and comparable company valuation, financial statement analysis, and sector research. Actively seeking an equity research role to contribute high-quality, data-driven analysis.

WORK EXPERIENCE

Research Analyst Intern | PredictRAM R.A.M.P.

May 2026 – Present

- Conducting active equity and sector research on Indian markets.
- Completed comprehensive research reports with an average quality score of 77.2%; reports include sector studies, fundamental analysis, and macro commentary on the Indian economy.
- Performing financial statement analysis, ratio analysis, and valuation modeling for assigned Indian-listed companies, developing investment theses with risk assessment and price targets.
- Conducting in-depth competitive and industry analysis across multiple Indian sectors to identify structural trends and stock-specific catalysts.

Data Annotator – Project Sonic | Telus Digital (Freelance)

Mar 2025 – Apr 2026

- Contributed to Project Sonic, annotating text and image datasets to support ML model training, maintaining high accuracy and labeling consistency standards.
- Conducted quality checks and resolved annotation discrepancies to meet project and audit requirements, consistently meeting delivery timelines with strong performance scores.

Columnist (via FlairTree) | Barchart

May 2024 – Feb 2025

- Wrote analytical investment articles covering US equities, commodities, and broader market strategies for Barchart's platform.
- Applied fundamental and technical research methodologies to identify investment opportunities and market inflection points.
- Translated macroeconomic indicators and corporate earnings data into clear, actionable insights for retail and institutional investors.
- Collaborated with editorial and analyst teams to ensure content accuracy, publication standards, and timely delivery.

Investment Analyst | FlairTree

Aug 2022 – Apr 2024

- Conducted fundamental equity research on US-listed companies, analyzing balance sheets, income statements, and cash flow statements to identify valuation gaps and stock-moving catalysts.
- Built DCF and comparable company (comps) valuation models to generate price targets and investment recommendations for equity coverage.
- Authored and published investment reports, earnings previews, and market commentaries on Yahoo Finance, NASDAQ, and StockNews, reaching a broad retail and institutional audience.
- Leveraged FactSet, Yahoo Finance, and Seeking Alpha for financial data extraction, industry benchmarking, and macro trend analysis.
- Prepared earnings commentary and post-results assessments, identifying key earnings drivers and revising forward estimates accordingly.

PUBLISHED RESEARCH & SELECTED REPORTS

- NASDAQ, StockNews – US equity research, earnings commentary, and investment reports
Aug 2022 – Apr 2024
- Barchart – Investment articles covering equities, commodities, and market strategy
May 2024 – Feb 2025
